Ecclesiact®
Connecting Churches…
Witnessing to Communities

Customer Testimonials:

Monica Pivetta, Unveiling Life International
www.unveilinglife.ca

"You have made a great contribution in helping us bridge the gap between the "traditional" informative website to the "content based" website.

We can now provide people with the needs and service that the Ministry offers.

We are **tremendously happy** with your work and your immediate attention when questions arise. We thank you for making it happen!"

Werner Peters, Westmount Park Ministries
www.westmountparkchurch.org

"The hardest part of having a web presence is maintaining it and staying fresh.

After years of struggling with our website in-house, we recognized that we needed a better system.

I **happily and unreservedly** endorse and recommend the Ecclesiact system for your church web-site needs."

Ecclesiact [i-**klee**-zhee-akt]

- **Ecclesia:** church or congregation (Latin)
- **act:** to do or represent

Is your church connected yet?

Don't hide your lamp under a bushel...

... the **Ecclesiact® Web System** lets **YOU** keep your church or ministry web site right up to date using just a web browser.

Built by Christians in Canada, the Ecclesiact® Web System was created with these aims:

Our Mission Statement:

- ✞ To help churches maintain their websites;
- ✞ to encourage them to work together as The Body of Christ;
- ✞ to enable them to powerfully communicate Christ's Gift of Salvation to everyone.

Ecclesiact® systems can **connect together** to **SHARE selected news, events, sermons and other content automatically** – ideal for church plants and joint ministries in local communities.

Find out if an Ecclesiact®-powered website could form a vital part of your witness to your local community and beyond.

Ask us for our free website planning guide and get started today!
